SUSTAINABILITY CLUB

Happy Earth Day!!!

Today, we celebrate the planet we call home. Earth Day is a reminder of how important it is to take care of our environment, not just today, but every day. From reducing waste to planting trees, even small actions can make a big difference. Caring for the Earth means protecting our communities, wildlife, and the beauty of the world around us. It's about making sure there's a healthy, livable planet for ourselves and for future generations. 🌱🌿

Earth Week Activities

April 22-25 Trivia: Each TA has been given a slip of paper to answer the questions. The questions will be said during TA period and each TA has until end of the period to hand in their paper to Briana or Retha in Room 8. Your slips will be returned to you by the next day. You are not allowed to use your phones and search up any answers, this will cause your TA to be disqualified. The TA with the most correct answers will receive a prize.

April 23 Lights Out: We'll be turning off the lights for a period. It is a simple but powerful way to conserve energy and raise awareness about protecting our planet. Saving electricity helps reduce pollution and fights climate change.

April 25 Community Clean-up: During the lunch period Sustainability club will be hosting a community clean-up. Everyone is welcomed and encouraged to join. TA points will be given out the TA who has the most students attending.
